They are settled into the office and ready to greet owners. A new office girl has been hired by Distinctive Homes. She is bilingual and a Mexican national.

Paul, a familiar face is still with us.

Victoria, a new face in the office starting April 5, 2010
Due to improved roads, air access, Fonatur (the government's agency in charge of tourism) and the private sector Los Cabos has evolved from a sleepy hideaway for fishermen and yacht owners to a popular resort destination. These changes have been evolving over the last 15 to 20 years. Big box stores are here, the highway is bustling with new cars. Expenses are going up. The tax assessment for La Playita (new marina area) have gone from rural to urban. This season food, gas and utility prices have risen. With this inflation workers cost of living is higher. Wages need to keep up to the demands of everyday life. Distinctive Homes and their workers put in long hours and take great pride in keeping our complex a great place to stay.

Spring has arrived. Our beach is busy and the surf is up. Day time temperatures are into the low 80’s. It is a great time to be here at Mykonos.

REMINDER: April 17th, 2010 HOA Special assembly. If you can’t make the meeting get your proxy in.
